

# KENSINGTON COMPOST

## FOOD WASTE COLLECTIONS

There are now five public composting stations across Kensington that are free for anyone to add household and garden organics to. This gives our neighbourhood access to local composting, and creates a valuable resource for community gardening, food growing, and greening programs. With waste levies set to go up 23% this year, we offering a competitive way for local businesses and apartment buildings to:

**1 MANAGE YOUR ORGANIC WASTE SUSTAINABLY**

**2 SUPPORT GROWING COMMUNITY NETWORKS**

Take advantage of our convenient, genuinely sustainable ebike collection service, while contributing to community-building activities. This service is provided as a not-for-profit fundraising initiative by Kensington Town Hall Compost Incorporated, supporting the Kensington Community-powered Compost Network.

We will provide you collection buckets and organise a pickup schedule to suit your needs. For pricing and to register your interest please call or message:

0402 636 444
